

Huhtamaki

Windsor Management System Policy

It is Huhtamaki's declared purpose in our worldwide activities and presence that we will strive for innovative solutions and operational excellence in all areas of our business. We want Huhtamaki to be a proactive company contributing to our customers' success by helping them sell more.

Our commitment to achieving operational excellence is through the creation of a safe workplace for all identified interested parties, the manufacture of safe and legally compliant products to the specified quality and the protection of the environment in which we work.

We aim to create a zero harm workplace through our commitment to prevention of injury and ill health and the continual improvement of our OH&S management system.

The key aspects of this are:

- Leadership
- Communication & involvement of all identified interested parties
- Consistency of approach

We aim to meet our customers' expectations through our commitment to comply with all relevant regulations, legislation and other applicable requirements and continually improve the effectiveness of the quality management system.

The key aspects of this are:

- Understanding the expectations of all our customers
- Setting high standards of operational excellence
- Communication of these standards to our employees
- Commitment to the standards by all identified interested parties

We aim to minimise our environmental impact and protect the environment through our commitment to the management of our environmental performance and the continual improvement of our environmental management system.

The key aspects of this are:

- Understanding the environmental impacts & aspects of our operation
- Development of programs and plans to manage & minimise these
- Prevention of pollution

The company is committed to meeting and complying with all required statutory and regulatory requirements and obligations.

Shane Hawken
Plant Manager
