

Lidding Laminates

When dealing with hot products and microwavables, you can't leave anything to chance. Our lidding laminates keep the user safe and the contents secure, in everything from hot fill applications to retorted products.

Huhtamaki

Highly resistant. Extremely reliable.

Our lidding laminates are made from an innovative material that's both gentle and incredibly tough. They're soft and easy to peel, yet they create an impenetrable barrier between the contents of your product and the outside world.

The Huhtamaki advantage

- Protects your product from oxygen and moisture
- Performs in the highest retort temperatures
- Aluminium-free: no metals in the finished product
- Microwaveable
- Easy to use, with a clean and smooth peel
- Available in both clear and opaque versions
- Available in a wide range of shapes and sizes
- Suitable for high-resolution rotogravure printing
- Ideal for displaying promotions or product information
- Long shelf life of retorted products, from 12 to 18 months in ambient temperatures
- Strictly conforms to international food compliance guidelines for migrations

All our products can be customised to fit your requirements.
