

Protect+

Discover the aluminium-free advantage: Protect+ is a sealed edge pouch with outstanding barrier properties. It outperforms the aluminium-based alternatives while reducing your environmental footprint. Light and highly resistant to punctures, Protect+ offers excellent machinability and flexural stiffness, plus a smooth, controlled opening motion.

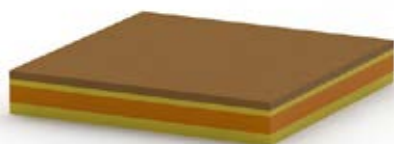

Huhtamaki

Durability meets sustainability

The Huhtamaki advantage

- Protects your products from oxygen and moisture
- Highly resistant to punctures
- Lower weight reduces costs
- Cheaper to dispose of (e.g. in the German dual system)
- Requires no modification of packing machines
- Tears open cleanly and easily, in a straight line
- Improved sealing properties than traditional aluminium laminates
- Excellent machinability without building up electrostatic charge
- Finished pouch can be put through a metal detector
