

# Push Tab<sup>®</sup> Solutions Recyclable Tablet Packaging

As an innovative producer of pharmaceutical & healthcare packaging, Huhtamaki has launched Push Tab<sup>®</sup> - with various flexible blister solutions. The improved opening of strip packs allows to push through the tablet and provides highest barrier properties. The result: a cost optimized way of PVC free and recyclable tablet packaging.

**Huhtamaki**

# Optimized material, many advantages

Compared to current strip packs, Push Tab® is providing a new opening feature and could be an alternative to blister or cold form packs.

## Advantages

- Completely without PVC
- Unlimited forms & shapes
- Adaptable handling options
- Child Resistant / Senior Friendly possible
- Cost optimized tablet packaging
- Highest barrier and product safety (alufoil + transparent)
- One material for all climate zones (I - IV)
- Contract manufacturing and packaging

## Differentiate your product
